- Efficient production management
- Waste control
- Investment on technology

CIRCULARITY

- Resource optimization
- Recycling pre and post- consumer waste
- Regenerate resources
- Design out waste

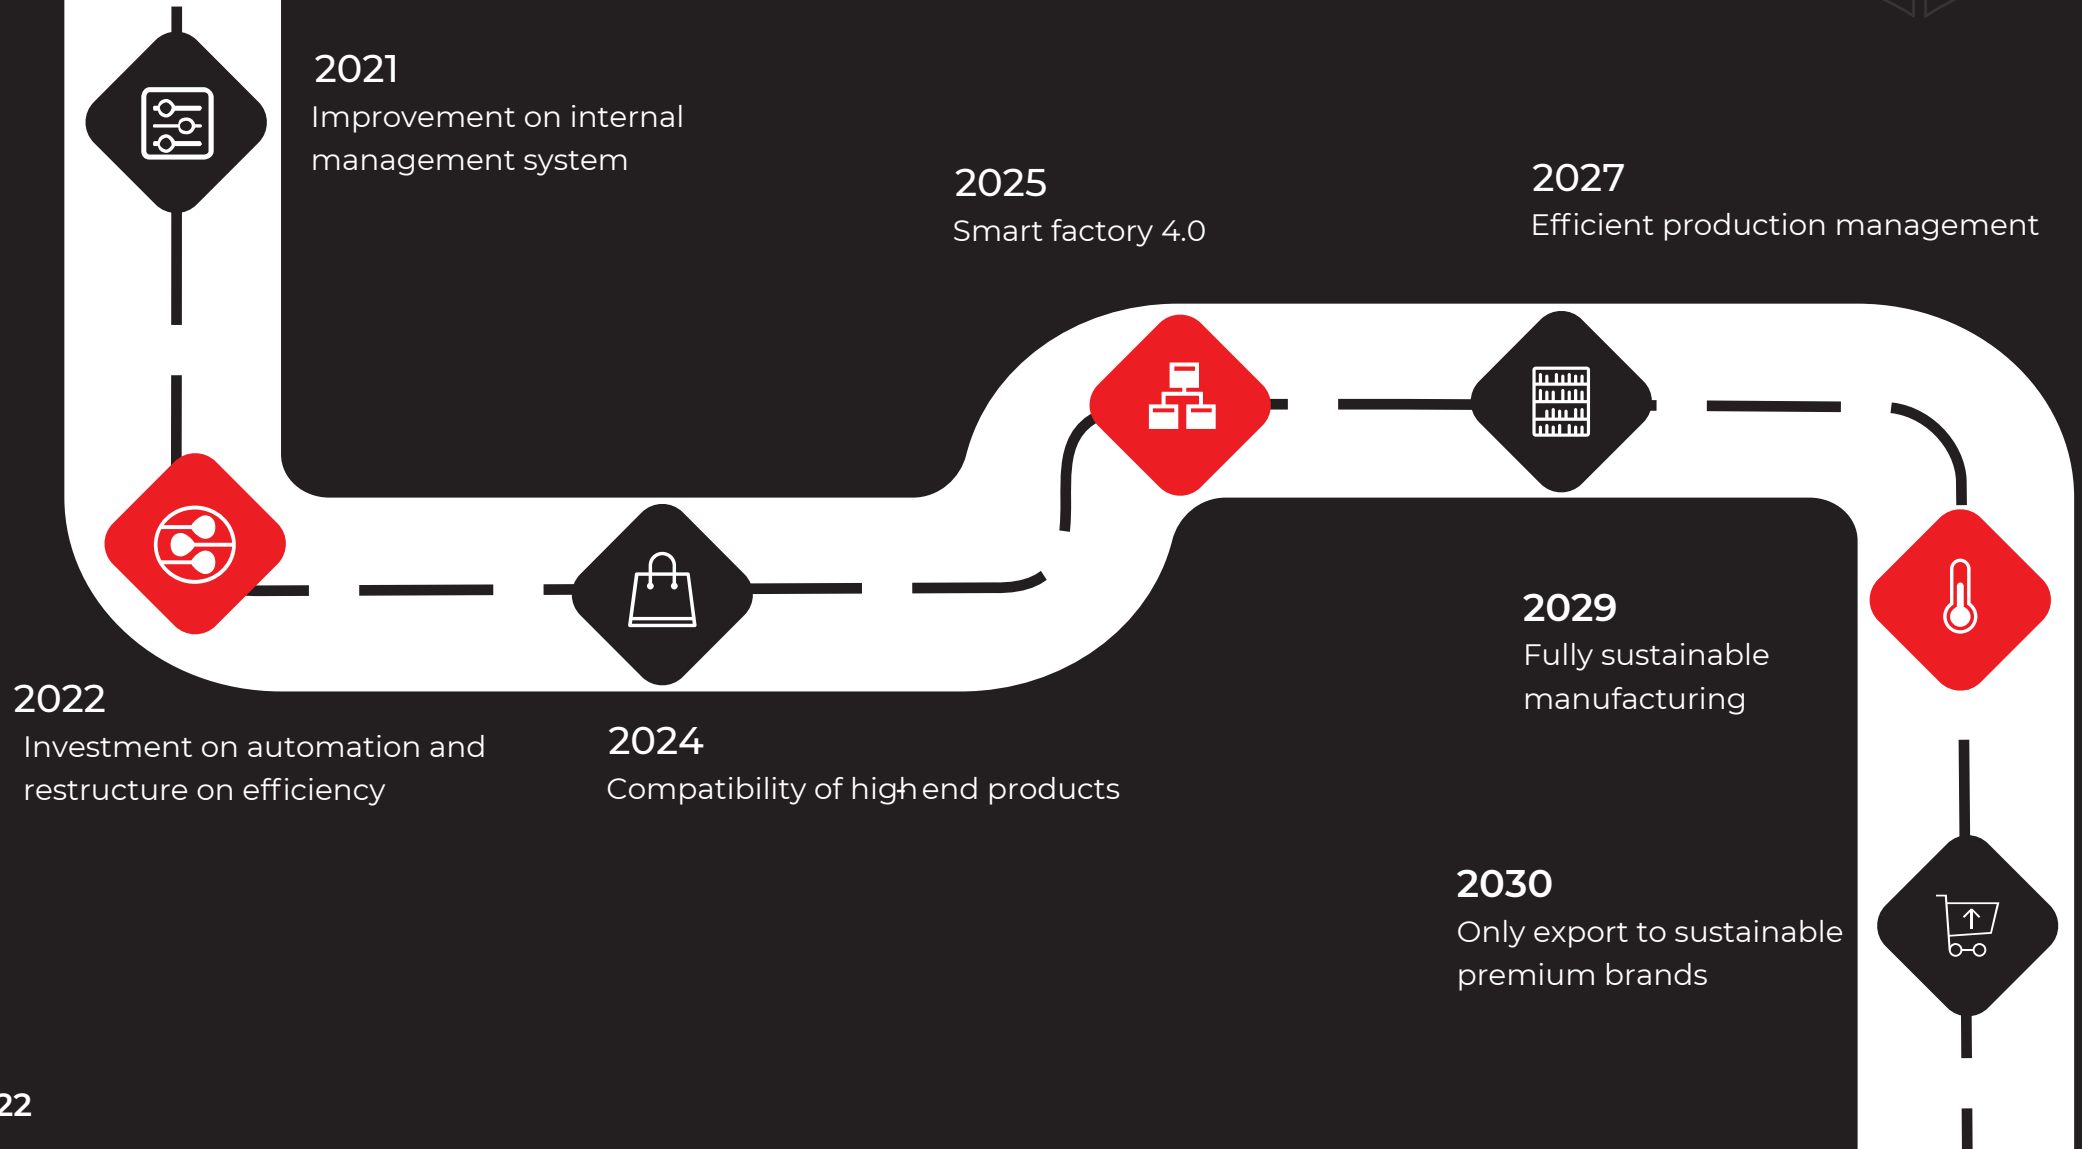

INNOVATION

- New fabric development
- Product development
- Product diversification
- Value added products

SUSTAINABILITY ROADMAP

OUR MILESTONES

STRENGTH – WEAKNESS – OPPORTUNITY – THREAT

SELF ANALYSIS REPORT

- We do accept very low order quantities.
- We can produce advanced fashion garments whether it is asymmetric or symmetric pattern.
- We can produce almost any kind of knit garments possible in Bangladesh.
- We support to promote new brand entrepreneur anywhere in the globe.
- We are always on development of new kinds of fabric so that our buyers can find new option for next fashion trend.
- We have strong supply chain network for all sorts of raw materials.
- Professional management staffs for effective communication.

We are not perfect, we do mistake and trying our best to improve from our learning. We wholeheartedly try to provide our best service to all our buyers. But sometime different kinds of constraints may interrupt our service level. We always try to identify the problems and solving them. We are little too much flexible and sometime 'hardly requested' activities made us failure. We are still learning how to say 'no'.

- The way Style Museum LTD wants to operate the company in terms of 'fair trade' and 'sustainability'; if the brands are not cooperating in same way, the factory may face severe financial burden.
- As per the Return of Investment (ROI) calculation; factory invested little too much money on sustainability where brands/consumers seem reluctant to support the philosophy.
- 'Sustainability' doesn't come for free. If all stakeholders come forward and contribute; we may never become a 'fully sustainable' company.

As a company Style Museum LTD has huge opportunity in terms sustainable fashion production and ethical business practice. The practices of business transparency, traceability, adaptability and flexibility can be lifted to next level business venture who would like to showcase their brand as ethical brand. Style Museum LTD obtain good reputation in textile manufacturing and this can be a good selling points for brands when business collaboration established.

TRANSPARENCY IN OPERATION

WE WANT TO SET BENCHMARK AND MILESTONES

We are committed to publish our sustainability report every year.

1

SUSTAINABILITY
REPORT

2

KNOWLEDGE SHARE

With proper arrangement we are open to everybody to visit our facilities and we are delighted to share our knowledge and experience

4

COMPLIANCE

We are wholehearted to comply national or international code of conduct.

3

STAKEHOLDER
ENGAGEMENT
